

Create a complete case database as easily as making a photocopy.

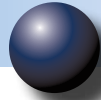

Full-Featured

- Scan, print and OCR in one pass
- Endorse with multi-line messages and Bates labels
- Outputs searchable TIFFs and PDFs with bookmarks
- Generates common litigation database load files
- Export with a runtime database and image system that enables end-users to highlight, annotate, redact, tag and perform searches

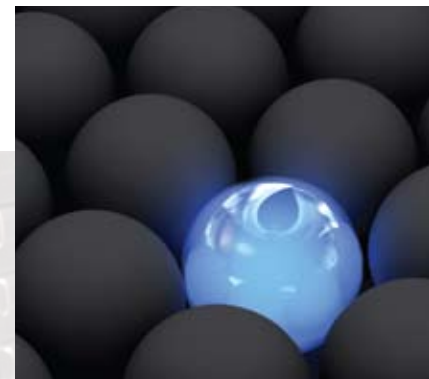

Easy to Use

- Intuitive touch screen interface allows anyone to use the product
- Image, OCR and print as easily as making a photocopy
- Quickly run jobs without time consuming project setup
- Renumber, insert and modify at the touch of a button
- Captured binding elements on slipsheets make reassembly a snap

Increases Productivity

- Simultaneously image, Bates label, OCR and print with one button
- Real-time quality control module improves productivity and avoids expensive rework
- Job costing reports help monitor efficiency
- Ability for unattended reprints of past productions
- Simple prep sheets ensure proper document breaks

REVIEW

PRODUCTION

IPRO Copy+ works with multiple devices:

Böwe Bell+Howell

Canon

Fujitsu

Gestetner

Kodak

Konica Minolta

Kyocera Mita

Lanier

Océ

Panasonic

Ricoh

Savin

Sharp

Toshiba

Xerox

IPRO Copy+ transforms the sophistication of document imaging, Bates labeling, OCR and paper production into a single step, single button operation. The same skills needed to photocopy a document now produce a complete image, text and runtime database system along with the paper copy.

Universal deliverables, whether searchable and/or bookmarked PDF files, TIFF images, litigation support load files, manifest reports, paper or complete runtime database systems, are all available in one product designed for a minimum of effort and cost.
